Consolidated Financial Results for the Fiscal Year Ended March 31, 2008

Tokyo, May 14, 2008 -- Sony Corporation today announced its consolidated results for the fiscal year ended March 31, 2008 (April 1, 2007 to March 31, 2008).

- New fiscal year records were achieved for consolidated sales and net income.
- Consolidated operating income for the current year was more than five times the prior year and the second highest level in Sony's history.
- In the Electronics segment, new records in sales and operating income were achieved.
- Sony plans to increase its regular annual dividend by $\frac{15}{40}$ and to issue a special cash dividend of $\frac{10}{40}$ per share, which would result in a total annual dividend of $\frac{15}{40}$ for the fiscal year ending March 31, 2009.

Consolidated Results for the Fiscal Year Ended March 31, 2008

Sales and operating revenue ("sales") increased 6.9% compared to the previous fiscal year ("year-on-year") and achieved a new fiscal year record.

Electronics segment sales increased 8.9% year-on-year, achieving a new fiscal year record, due to the increase in sales of products such as BRAVIATM LCD televisions, VAIOTM PCs and Cyber-shotTM digital cameras. In the Game segment, sales increased 26.3% year-on-year primarily as a result of a significant increase in sales of PLAYSTATION®3 ("PS3"). In the Pictures segment, there was an 11.2% decrease year-on-year as motion

pictures sales decreased due primarily to fewer films being released during the current fiscal year. In the Financial Services segment, revenue decreased by 10.5% year-on-year mainly due to net loss from investments in the separate account and deterioration in net valuation gains from convertible bonds in the general account reflecting a significant decline in the Japanese stock market and partially offset by an increase in insurance premium revenue at Sony Life Insurance Co., Ltd. ("Sony Life").

On a local currency basis, consolidated sales increased 6% year-on-year. For references herein to sales on a local currency basis, see Note on page 10.

Operating income increased 421.9% year-on-year resulting in Sony's second highest level of operating income.

In the Electronics segment, operating income increased, achieving a new fiscal year record, primarily as the result of an increase in sales as well as the positive impact from the depreciation of the yen against the euro. Products within the segment including VAIO PCs, Cyber-shot digital cameras, system LSIs, and Handycam® video cameras each achieved their highest levels of operating income in history, and contributed to the overall increase in operating income. In the Game segment, the operating loss decreased significantly primarily due to a decrease in the operating losses of the PS3 business as a result of successful PS3 hardware cost reductions and increased sales of PS3 software. In the Pictures segment, operating income increased mainly due to the strong performance of prior year films in the home entertainment and television markets as well as the benefit from the sale of a bankruptcy claim against KirchMedia, a former licensee of film and television product. In the Financial Services segment, a decline in operating income was mainly attributable to a deterioration in net valuation gains from convertible bonds and an impairment loss on equity securities in the general account of Sony Life reflecting significant decline in the Japanese stock market.

In addition, in the previous fiscal year a ¥51.2 billion provision was recorded for charges related to recalls by certain notebook computer makers and the subsequent global replacement program by Sony and certain notebook computer makers involving battery packs containing Sony-manufactured battery cells. A portion of the provision totaling ¥15.7 billion (\$157 million) was reversed in the current fiscal year based on the actual results of recalls and replacements as compared to our original estimates.

During this fiscal year, restructuring charges of ¥47.3 billion (\$473 million) were recorded as operating expenses compared to ¥38.8 billion in the previous fiscal year. Substantially all of these restructuring charges in both years relate to the Electronics segment.

Operating income during the current fiscal year included one-time gains primarily from a gain on the sale of a portion of the site of Sony's former headquarters of \(\xi\)60.7 billion (\\$607 million), a \(\xi\)15.6 billion (\\$156 million) gain relating to the sale of a portion of Sony's semiconductor operations in Nagasaki, Japan, including machinery and equipment, and a \(\xi\)10.0 billion (\\$100 million) gain on the sale of the urban entertainment complex "The Sony Center am Potsdamer Platz" in Berlin, Germany. Operating income in the previous fiscal year included a gain on the sale of a portion of the site of Sony's former headquarters of \(\xi\)21.7 billion.

Operating income during the current fiscal year included a gain from the reversal of a portion of a legal provision as a result of the resolution of a legal matter, while a comparable gain was recorded in the previous fiscal year attributed to the reversal of a portion of patent-related provisions.

Income before income taxes was ¥466.3 billion (\$4,663 million), a new fiscal year record and a year-on-year increase of 357.0%, due to the increase in operating income discussed above and an improvement of ¥61.5 billion (\$615 million) in the net effect of other income and expenses. The improvement in the net effect of other income and expenses was primarily due to the recording of a gain of ¥81.0 billion (\$810 million) for the change in ownership interest in subsidiaries and investees as a result of the global initial public offering of shares of Sony Financial Holdings Inc. ("SFH") in connection with the listing of shares on the First Section of the Tokyo Stock Exchange in October 2007, and the recording of a net foreign exchange gain in the current fiscal year versus a net foreign exchange loss recorded in the previous fiscal year.

Income taxes: During the current fiscal year, Sony recorded ¥203.5 billion (\$2,035 million) of income taxes resulting in an effective tax rate of 43.6%.

Equity in net income of affiliated companies increased 28.2% year-on-year to ¥100.8 billion (\$1,008 million), a new fiscal year record. Sony recorded equity in net income for Sony Ericsson Mobile Communications AB ("Sony Ericsson") of ¥79.5 billion (\$795 million), a decrease of ¥5.8 billion year-on-year primarily due to higher R&D expenses as a percentage of sales. Sony also recorded equity in net income of ¥10.0 billion (\$100 million) for SONY BMG MUSIC ENTERTAINMENT ("SONY BMG"), a year-on-year increase of ¥5.0 billion. This increase was due to lower restructuring, marketing and overhead costs as well as a gain on the sale of an interest in a joint venture of SONY BMG and the positive impact from the effect of foreign currency exchange rate fluctuations. Equity in net income of ¥7.4 billion (\$74 million) was recorded for S-LCD Corporation ("S-LCD"), a joint-venture with Samsung Electronics Co., Ltd., a year-on-year increase of ¥2.4 billion.

Sony did not record any equity gain or loss for Metro-Goldwyn-Mayer Inc. ("MGM") in the current fiscal year compared to equity in net loss of ¥18.9 billion recorded in the prior fiscal year. As of March 31, 2007, Sony no longer had any book basis in MGM and accordingly, no additional losses were recorded during the fiscal year ended March 31, 2008.

As a result of the changes in the items discussed above, **net income** increased 192.4% year-on-year to ¥369.4 billion (\$3,694 million), a new fiscal year record.

Electronics

(Billions of yen, millions of U.S. dollars)

Fiscal year ended March 31

	Change in						
	2007	2008	Yen	2008			
Sales and operating revenue	¥6,072.4	¥6,613.8	+8.9%	\$66,138			
Operating income	160.5	356.0	+121.8	3,560			

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales increased by 8.9% year-on-year (an 8% increase on a local currency basis) to \(\frac{4}{6},613.8\) billion (\\$66,138\) million). Sales to outside customers increased 9.0% year-on-year. There was an increase in sales of products including BRAVIA LCD televisions, VAIO PCs and Cyber-shot digital cameras, all of which experienced higher unit sales in all regions. On the other hand, there was a decrease in sales of products including LCD rear-projection televisions as Sony decided to exit this business due to the shrinking market for these products.

Operating income was ¥356.0 billion (\$3,560 million), a 121.8% increase year-on-year. This increase was primarily the result of the increase in sales as well as the positive impact from the depreciation of the yen against the euro. With regard to products within the Electronics segment, operating income increased mainly for VAIO PCs and Cyber-shot digital cameras, which experienced higher sales, system LSIs, which saw an increase in sales of semiconductors for the Game segment, and Handycam® video cameras, which experienced increased sales of high value-added models. This was partially offset primarily by BRAVIA LCD televisions, for which profitability worsened due to unit selling price declines. Additionally, in the previous fiscal year a ¥51.2 billion provision was recorded for charges related to the notebook computer

battery pack recalls and subsequent global replacement program. A portion of the provision totaling ¥15.7 billion (\$157 million) was reversed in the current fiscal year based on the actual results of recalls and replacements as compared to our original estimates.

Inventory, as of March 31, 2008, was \(\frac{\pmax}{220}\) billion (\\$8,220\) million), which increased \(\frac{\pmax}{96.2}\) billion, or 13.3%, compared with the level as of March 31, 2007 and decreased \(\frac{\pmax}{71.3}\) billion, or 8.0%, compared with the level as of December 31, 2007.

Operating Results for Sony Ericsson Mobile Communications AB

The following operating results for Sony Ericsson, which is accounted for by the equity method as Sony Corporation's ownership percentage is 50%, are not consolidated in Sony's consolidated financial statements. However, Sony believes that this disclosure provides additional useful analytical information to investors regarding operating performance of Sony.

(Millions of euro)

Year ended March 31

	2007	2008	Change in euro
Sales and operating revenue	€11,892	€12,693	+7%
Income before income taxes	1,509	1,405	-7
Net income	1,142	993	-13

Sales for the year ended March 31, 2008 increased 7% year-on-year, boosted by strong sales of Walkman® and Cyber-shot phones. Income before income taxes decreased 7% year-on-year to €1,405 million. This was primarily due to higher R&D expenses as a percentage of sales. As a result, Sony recorded equity in net income of ¥79.5 billion (\$795 million).

Game

Operating income (loss)	(232.3)	(124.5)	-	(1,245)			

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales increased 26.3% year-on-year (a 24% increase on a local currency basis) to \(\pm\)1,284.2 billion (\\$12,842 million).

<u>Hardware:</u> Overall hardware sales increased as a result of a significant increase in sales of PS3, in addition to increased sales of PSP® (PlayStation®Portable) ("PSP"), for which a new slimmer, lighter model was released. Sales of PlayStation®2 ("PS2") decreased year-on-year.

Software: Overall software sales increased as a result of an increase in PS3 software sales.

The **operating loss** was ¥124.5 billion (\$1,245 million), an improvement of ¥107.8 billion year-on-year, and profit was recorded in the second half of the current fiscal year. The significant decrease in operating loss in the current fiscal year was primarily due to a decrease in the operating losses of the PS3 business as a result of

successful PS3 hardware cost reductions and increased sales of PS3 software, as well as the strong performance of the PSP business with the introduction of a new model.

Inventory, as of March 31, 2008, was ¥181.6 billion (\$1,816 million), which represents a ¥17.3 billion, or 8.7%, decrease compared with the level as of March 31, 2007. Inventory decreased by ¥1.4 billion, or 0.8%, compared with the level as of December 31, 2007.

Pictures

(Billions of yen, millions of U.S. dollars)

Fiscal year ended March 31

	Change in					
	2007	2008	Yen	2008		
Sales and operating revenue	¥966.3	¥857.9	-11.2%	\$8,580		
Operating income	42.7	54.0	+26.5	540		

Unless otherwise specified, all amounts are reported on a U.S. GAAP basis. The results presented above are a yentranslation of the results of Sony Pictures Entertainment ("SPE"), a U.S.-based operation which aggregates the results of its worldwide subsidiaries. Management analyzes the results of SPE in U.S. dollars, so discussion of certain portions of its results are specified as being on "a U.S. dollar basis."

Sales decreased 11.2% year-on-year (a 9% decrease on a U.S. dollar basis). Motion pictures sales decreased due primarily to fewer films being released during the current year. This was partially offset by higher home entertainment and television revenues from prior year films, including *Ghost Rider* and *Casino Royale*. Total Pictures segment sales also benefited from the sale of a bankruptcy claim against KirchMedia, a former licensee of film and television product. Revenues for the television business increased this fiscal year as a result of higher advertising and subscription revenue from several international channels. Major films released in the current fiscal year that contributed to both theatrical and home entertainment revenues included *Spider-Man 3* and *Superbad*.

Operating income increased 26.5% year-on-year. Operating income from motion pictures increased due to the strong performance of prior year films in the home entertainment and television markets. Operating income also increased due to the sale of the bankruptcy claim and the higher television business revenues discussed above.

^{*}Beginning with the quarter ended June 30, 2007, the method of reporting hardware and software unit sales has been changed from production shipments to recorded sales.

Financial Services

(Billions of yen, millions of U.S. dollars)

Fiscal year ended March 31

	Change in					
	2007	2008	yen	2008		
Financial service revenue	¥649.3	¥581.1	-10.5%	\$5,811		
Operating income	84.1	22.6	-73.1	227		

In Sony's Financial Services segment, results include SFH, Sony Life, Sony Assurance Inc., Sony Bank Inc. ("Sony Bank") and Sony Finance International Inc. Unless otherwise specified, all amounts are reported on a U.S. GAAP basis. Therefore, the results of Sony Life shown below differ from the results that SFH and Sony Life disclose on a Japanese statutory basis. As a result of the global initial public offering of shares of SFH, Sony Corporation's ownership percentage in SFH is 60%. Consolidated results for SFH continue to be consolidated in Sony's consolidated financial statements.

Financial service revenue decreased 10.5% year-on-year due to a decrease in revenue at Sony Life. Revenue at Sony Life was ¥464.1 billion (\$4,641 million), a ¥81.0 billion or 14.9% decrease year-on-year. Revenue decreased due to a net loss from investments in the separate account, a deterioration in net valuation gains from convertible bonds and an impairment loss on equity securities in the general account reflecting a significant decline in the Japanese stock market this fiscal year. Partially offsetting this was an increase in insurance premium revenue reflecting an increase in policy amounts in force.

Operating income decreased 73.1% as the result of a deterioration in profitability at Sony Life. Operating income at Sony Life was ¥11.5 billion (\$115 million), a ¥70.1 billion or 85.9% decrease compared to the previous fiscal year. This decrease was mainly due to a deterioration in net valuation gains from convertible bonds and an impairment loss on equity securities in the general account which more than offset the contribution from increased insurance premium revenue at Sony Life.

All Other

(Billions of yen, millions of U.S. dollars)

Fiscal year ended March 31

	Change in					
	2007	2008	yen	2008		
Sales and operating revenue	¥355.1	¥382.2	+7.6%	\$3,822		
Operating income	28.9	50.2	+73.9	502		

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales increased 7.6% year-on-year. Sales within All Other increased mainly due to the contribution from the sales at the U.S. music publishing company Famous Music LLC ("Famous Music"), acquired by Sony's U.S.-based music publishing subsidiary Sony/ATV Music Publishing LLC ("Sony/ATV") and consolidated in the current fiscal year, the receipt of a settlement payment related to copyright infringement claims, an increase in sales at Sony Music Entertainment (Japan) Inc. ("SMEJ"), and higher fee revenue from broadband connection services, especially fiber-optic, at So-net Entertainment Corporation ("So-net"). An increase in trademark royalty income from Sony Ericsson also contributed to the increase in sales.

Sales at SMEJ increased year-on-year mainly as a result of an increase in music download sales. SMEJ's best-selling albums during the current fiscal year included *ORANGE* and *RANGE* by ORANGE RANGE, *FAKIN' POP* by Ken Hirai and *CAN'T BUY MY LOVE* by YUI.

Operating income increased 73.9% year-on-year. Operating income within All Other increased principally as a result of a ¥10.0 billion (\$100 million) gain on the sale of "The Sony Center am Potsdamer Platz" in Berlin, the above-mentioned receipt of a settlement payment related to copyright infringement claims and an increase in the above-mentioned trademark royalty income from Sony Ericsson.

Operating Results for SONY BMG MUSIC ENTERTAINMENT

The following operating results for SONY BMG, which is accounted for by the equity method as Sony Corporation's ownership percentage is 50%, are not consolidated in Sony's consolidated financial statements. However, Sony believes that this disclosure provides additional useful analytical information to investors regarding operating performance of Sony.

(Millions of U.S. dollars)

Year ended March 31

	2007	2008	Change in U.S. dollars
Sales and operating revenue	\$4,101	\$3,934	-4%
Income before income taxes	135	257	+90
Net income	84	178	+111

During the year ended March 31, 2008, sales revenue at SONY BMG decreased by 4% year-on-year primarily due to the continued decline in the physical music market worldwide not being offset by the growth in digital product sales. Despite the decrease in sales, income before income taxes increased by 90% compared to the previous year primarily due to a year-on-year reduction in restructuring costs of \$67 million, lower marketing costs, reductions in overhead costs from continued restructuring, a gain on the sale of an interest in a joint venture of SONY BMG and the favorable impact of currency fluctuations. As a result, equity in net income of \$10.0 billion (\$100 million) was recorded by Sony. Best selling releases during the year included Alicia Keys' As I Am, Avril Lavigne's The Best Damn Thing, Celine Dion's Taking Chances and Leona Lewis' Spirit.

Cash Flows

The following charts show Sony's unaudited cash flow information for all segments excluding the Financial Services segment and for the Financial Services segment alone. These separate condensed presentations are not required under U.S. GAAP, which is used in Sony's consolidated financial statements. However, because the Financial Services segment is different in nature from Sony's other segments, Sony utilizes this information to analyze its results without Financial Services and believes that these presentations may be useful in understanding and analyzing Sony's consolidated financial statements.

Cash Flows - Consolidated (Excluding Financial Services segment)

(Billions of yen, millions of U.S. dollars)

Fiscal year ended March 31

Cash flows	2007	2008	Change in yen	2008
- From operating activities	¥305.6	¥519.1	¥+213.5	\$5,191
- From (used in) investing activities	(431.1)	(14.9)	+416.2	(149)
- From (used in) financing activities	59.6	(12.1)	-71.7	(121)
Cash and cash equivalents at beginning of the fiscal year	585.5	522.9	-62.6	5,228
Cash and cash equivalents at end of the fiscal year	522.9	948.7	+425.9	9,487

Operating Activities: During the fiscal year ended March 31, 2008, despite an increase in inventory primarily in the Electronics segment, net cash was generated due to the contribution of net income after taking into account depreciation and amortization in the Electronics segment.

Investing Activities: During the fiscal year ended March 31, 2008, net cash was used to purchase semiconductor fabrication equipment and acquire Famous Music by Sony/ATV. This was partially offset by proceeds from the sale of SFH shares, the sale of "The Sony Center am Potsdamer Platz" in Berlin and the sale of a portion of the site of Sony's former headquarters.

As a result, the net cash generated by operating activities and used in investing activities during the fiscal year ended March 31, 2008 was ¥504.2 billion (\$5,042 million).

Financing Activities: During the fiscal year ended March 31, 2008, cash was used to redeem straight bonds and for dividend payments.

Cash and Cash Equivalents: As a result of the above factors, and taking into account the effect of exchange rate changes, the total balance of cash and cash equivalents was ¥948.7 billion (\$9,487 million) at March 31, 2008, an increase of ¥425.9 billion compared to March 31, 2007.

(Billions of yen, millions of U.S. dollars)

Fiscal year ended March 31

Cash flows	2007	2008	Change in yen	2008
- From operating activities	¥256.5	¥242.6	¥-13.9	\$2,426
- From (used in) investing activities	(276.7)	(873.6)	-596.9	(8,736)
- From financing activities	179.6	491.7	+312.1	4,917
Cash and cash equivalents at beginning of the fiscal year	117.6	277.0	+159.4	2,770
Cash and cash equivalents at end of the fiscal year	277.0	137.7	-139.3	1,377

Operating Activities: Net cash provided by operating activities was generated primarily due to an increase in revenue from insurance premiums, reflecting an increase in policy amounts in force at Sony Life.

Investing Activities: Payments for investments and advances mainly carried out at Sony Life, and at Sony Bank where operations are expanding, exceeded proceeds from maturities of marketable securities, sales of securities investments and collections of advances.

Financing Activities: In addition to an increase in policyholders' accounts at Sony Life, there was an increase in deposits from customers at Sony Bank.

Cash and Cash Equivalents: As a result of the above, the balance of cash and cash equivalents was \(\frac{\pmathbf{4}}{137.7}\) billion (\(\frac{\pmathbf{5}}{1,377}\) million) at March 31, 2008, a decrease of \(\frac{\pmathbf{4}}{139.3}\) billion compared to March 31, 2007.

Consolidated Results for the Fourth Quarter ended March 31, 2008

Sales were \(\frac{\pmathbb{4}}{1}\),952.8 billion (\(\frac{\pmathbb{5}}{28}\) million), a decrease of 6.5% (virtually flat on a local currency basis) compared to the same quarter of the previous fiscal year ("year-on-year").

In the Electronics segment, although there was an increase in sales to outside customers, overall sales decreased primarily due to a decrease in intersegment sales to the Game segment. Sales primarily of BRAVIA LCD televisions, VAIO PCs and Cyber-shot digital cameras increased, while sales of mobile phones produced for wireless customers, LCD rear-projection televisions and CRT televisions decreased. In the Game segment, despite an increase in sales from the PSP business, overall sales decreased mainly as a result of the decrease in sales from the PS2 business. In the Pictures segment, sales decreased primarily because fewer current year films were released into the home entertainment market compared to the same quarter of the previous year. Partially offsetting this decrease were the proceeds from the sale of a bankruptcy claim against KirchMedia. In the Financial Services segment, revenue decreased due to a net loss from investments in the separate account, a deterioration in net valuation gains from convertible bonds and an impairment loss on equity securities in the general account at Sony Life.

An **operating loss** of ¥4.7 billion (\$47 million) was reported, an improvement of ¥108.7 billion year-on-year. In the Electronics segment, despite a decrease in sales, the amount of loss decreased mainly as a result of a reversal of a portion of the provision for charges related to the notebook computer battery pack recalls and subsequent global replacement program as well as a gain relating to the sale of a portion of Sony's semiconductor operations in Nagasaki, including machinery and equipment. In the Game segment, there was a significant decrease in operating losses primarily due to a decrease in the operating losses of the PS3 business as a result of successful PS3 hardware cost reductions. Operating income for the Pictures segment increased due to the above-mentioned sale of the bankruptcy claim and lower marketing expenses year-on-

year for films not yet released. These factors more than offset the impact of fewer current year films being released into the home entertainment market. In the current quarter, an operating loss was recorded within the Financial Services segment compared to operating income recorded in the same quarter of the previous fiscal year due to a deterioration in net valuation gains from convertible bonds and an impairment loss on equity securities in the general account of Sony Life noted above. Operating income within All Other increased principally as a result of a gain on the sale of "The Sony Center am Potsdamer Platz" and the receipt of a settlement payment related to copyright infringement claims.

During the current quarter, restructuring charges of ¥14.2 billion (\$142 million) were recorded as operating expenses compared to ¥23.1 billion in the same quarter of the previous fiscal year. Nearly all of these restructuring charges in both periods relate to the Electronics segment.

Income before income taxes was ¥6.2 billion (\$62 million), a ¥111.9 billion improvement from the ¥105.7 billion loss recorded in the same quarter of the prior fiscal year due to the decrease in operating loss discussed above.

Income taxes: Sony recorded a ¥6.3 billion (\$63 million) income tax benefit mainly due to the reversal of valuation allowances at certain Sony subsidiaries as the tax benefits previously reserved are now more likely than not to be realized.

Equity in net income of affiliated companies of \$10.8 billion (\$108 million) was recorded, an 11.9% decrease year-on-year. Equity in net income of Sony Ericsson was \$10.3 billion (\$103 million), a \$9.3 billion decrease year-on-year. This decrease was primarily due to a less favorable product mix as a result of slowing market growth in mid-to-high end phones in markets where Sony Ericsson has a strong presence and an increase in R&D expenses. For S-LCD, equity of net income of \$3.4 billion (\$34 million) was recorded, a \$1.5 billion increase year-on-year. Equity in net loss of \$2.3 billion (\$23 million) was recorded for SONY BMG, a year-on-year deterioration of \$1.0 billion. The increased loss was primarily due to lower revenues in the current quarter which more than offset lower restructuring expenses. Sony did not record an equity gain or loss for MGM in the current quarter compared to equity in net loss of \$8.2 billion recorded in the same quarter of the prior fiscal year. As of March 31, 2007, Sony no longer had any book basis in MGM and accordingly, no additional losses were recorded during the quarter ended March 31, 2008.

Net income of ¥29.0 billion (\$290 million) was recorded during the quarter, a ¥96.6 billion improvement from the ¥67.6 billion loss recorded in the same quarter of the prior fiscal year.

Note

During the fiscal year ended March 31, 2008, the average value of the yen was \$113.3 against the U.S. dollar and \$160.0 against the euro, which was 2.4% higher against the U.S. dollar and 7.1% lower against the euro, compared with the average rates for the previous fiscal year. During the quarter ended March 31, 2008, the average value of the yen was \$104.3 against the U.S. dollar and \$156.2 against the euro, which was 13.6% higher against the U.S. dollar and 0.7% lower against the euro, compared with the average rates for the same quarter of the previous fiscal year.

Sales on a local currency basis described herein reflect sales obtained by applying the yen's monthly average exchange rate in the previous fiscal year and the same quarter of the previous fiscal year to local currency-denominated monthly sales in the current fiscal year and the current quarter, respectively. Sales on a local currency basis are not reflected in Sony's consolidated financial statements and are not measures conforming with U.S. GAAP. In addition, Sony does not believe that these measures are a substitute for U.S. GAAP measures. However, Sony believes that disclosing sales information on a local currency basis provide additional useful analytical information to investors regarding operating performance of Sony.

Rewarding Shareholders

Sony believes that continuously increasing corporate value and providing dividends are essential to rewarding shareholders. It is Sony's policy to utilize retained earnings, after ensuring the perpetuation of stable dividends, to carry out various investments that contribute to an increase in corporate value such as those that ensure future growth and strengthen competitiveness.

On May 14, 2008, a year-end cash dividend of \$12.5 (\$0.13) per share (the same as the amount paid in the previous fiscal year) payable as of June 2, 2008 was approved by the Board of Directors. Sony has already paid an interim dividend of \$12.5 per share to each shareholder; accordingly, the total annual cash dividend per share would be \$25.0 (\$0.25).

In regards to the annual dividend for the fiscal year ending March 31, 2009, Sony plans to increase its regular dividend per share by \(\frac{\pmathbf{4}\text{15}}\) to \(\frac{\pmathbf{4}\text{40}}{40}\) per annum from \(\frac{\pmathbf{2}\text{5}}{25}\) per share in the current fiscal year upon careful consideration of Sony's results for the current fiscal year and other factors. Sony also plans to distribute a special cash dividend of \(\frac{\pmathbf{4}\text{10}}{10}\) per share as part of the interim dividend, which would be paid in December 2008. This special dividend would reward our shareholders for the successful global initial public offering of shares of SFH and be in appreciation of their support during the implementation of our three-year restructuring program as well as other corporate initiatives which resulted in record consolidated net income during the fiscal year ended March 31, 2008. As a result, Sony plans to pay a total annual dividend for the fiscal year ending March 31, 2009 of \(\frac{\pmathbf{4}\text{50}}{20}\) per share, comprising an interim dividend of \(\frac{\pmathbf{4}\text{30}}{20}\) per share and a year-end dividend of \(\frac{\pmathbf{4}\text{20}}{20}\) per share.

Outlook for the Fiscal Year ending March 31, 2009

^{*}Investments in S-LCD are not included within the forecast for capital expenditures.

Assumed foreign currency exchange rates: approximately \\$100 to the U.S. dollar and approximately \\$158 to the euro.

Forecasted consolidated operating results above have been prepared based on the current business environment and reflect the factors noted below.

With regard to operating income, in the fiscal year ended March 31, 2008 there were significant one-time gains recorded including a ¥60.7 billion gain on the sale of a portion of the site of Sony's former headquarters. We do not anticipate any similar one-time gains during the fiscal year ending March 31, 2009.

The above forecast includes restructuring charges, recorded as operating expenses, of approximately \(\xxi\)20 billion expected to be incurred across the Sony Group during the fiscal year, primarily within the Electronics

^{**}The forecast for depreciation and amortization includes amortization of intangible assets and amortization of deferred insurance acquisition costs.

segment, compared to ¥47.3 billion of restructuring charges recorded during the fiscal year ended March 31, 2008.

We anticipate a decrease in income before income taxes for the fiscal year ending March 31, 2009 due to the absence of a gain of \(\frac{\pmathbf{\text{\text{4}}}}{81.0}\) billion recorded in other income for the fiscal year ended March 31, 2008 for the change in ownership interest in subsidiaries and investees as a result of the global initial public offering of shares of SFH in connection with the listing of shares.

Equity in net income of affiliated companies is expected to decrease. This is due to slowing market growth for mid-to-high end mobile phones and an increase in R&D expenses for Sony Ericsson and an increase in restructuring costs expected for SONY BMG.

Capital expenditures for the fiscal year ending March 31, 2009 are expected to increase primarily within the Electronics segment. Within the Electronics segment, capital expenditures in the semiconductor business during the fiscal year are expected to increase by approximately \mathbb{\pma}20 billion to approximately \mathbb{\pma}110 billion due to an increase in the amount invested in image sensors.

The forecast for each business segment is as follows:

Electronics

Despite an expected increase in sales primarily of BRAVIA LCD televisions, VAIO PCs and Cyber-shot digital cameras, sales are expected to be flat compared to the fiscal year ended March 31, 2008 mainly due to the impact of the appreciation of the yen against the U.S. dollar. Although a significant improvement in operating profitability is expected for the television business, overall operating income is expected to decrease mainly due to the impact of the appreciation of the yen against the U.S. dollar.

Game

Despite an expected decrease in Game segment sales as a result of a decline in sales for the PS2 business, the Game segment as a whole is expected to have positive operating income for the fiscal year ending March 31, 2009 as the profitability of the segment will improve significantly due to hardware cost reductions and an enhanced line-up of software titles in the PS3 business.

Pictures

A decrease in sales is expected mainly due to the impact of the appreciation of the yen against the U.S. dollar. A decrease in operating income is anticipated as the benefit from the sale of a bankruptcy claim against KirchMedia in the fiscal year ended March 31, 2008 is not expected to recur in the fiscal year ending March 31, 2009.

Financial Services

The effect of gains and losses on investments at Sony Life due to stock market fluctuations are not incorporated within the forecast for the fiscal year ending March 31, 2009. Therefore, we anticipate a significant increase in revenue and operating income within the segment compared to the fiscal year ended March 31, 2008 which experienced the effect of a downturn in the Japanese stock market.

Note to the above Forecast

The above forecast is based on the market prices of the portfolio of our Financial Services segment as of March 31, 2008. Sony cautions that a number of risks and uncertainties, including market volatility and fluctuations, could cause actual results for the Financial Services segment to differ materially from the forecasts. In addition, the impact on this portfolio may not match the changes in valuation realized in the Japanese equity markets since there may be differences between prices of individual securities and movements in market indices like the TOPIX.

According to a hypothetical sensitivity analysis based on our portfolio (primarily corporate investment trusts held for trading purposes and convertible bonds within the assets of Sony Life's general account) as of March 31, 2008, a fluctuation of 10 percentage points in the TOPIX could create an impact on Sony's consolidated operating income of approximately ¥12-13 billion. Actual profits or losses may differ materially from the above analysis because the change in the prices of individual securities held by Sony Life may not match the change in the price of the TOPIX and the specific holdings within the portfolio may change as a result of future operations such as trading or the conversion of convertible bonds, the market prices of which may be affected by the fluctuation in market interest rates. In addition, the possibility of impairment losses in equity securities (excluding equity securities included in the corporate investment trust for trading purposes) held is not included in the analysis above.

Cautionary Statement

Statements made in this release with respect to Sony's current plans, estimates, strategies and beliefs and other statements that are not historical facts are forward-looking statements about the future performance of Sony. Forward-looking statements include, but are not limited to, those statements using words such as "believe," "expect," "plans," "strategy," "prospects," "forecast," "estimate," "project," "anticipate," "aim," "may" or "might" and words of similar meaning in connection with a discussion of future operations, financial performance, events or conditions. From time to time, oral or written forward-looking statements may also be included in other materials released to the public. These statements are based on management's assumptions and beliefs in light of the information currently available to it. Sony cautions you that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore you should not place undue reliance on them. You also should not rely on any obligation of Sony to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Sony disclaims any such obligation. Risks and uncertainties that might affect Sony include, but are not limited to (i) the global economic environment in which Sony operates, as well as the economic conditions in Sony's markets, particularly levels of consumer spending; (ii) exchange rates, particularly between the yen and the U.S. dollar, the euro and other currencies in which Sony makes significant sales or in which Sony's assets and liabilities are denominated; (iii) Sony's ability to continue to design and develop and win acceptance of, as well as achieve sufficient cost reductions for, its products and services, including newly introduced platforms within the Game segment, which are offered in highly competitive markets characterized by continual new product introductions, rapid development in technology and subjective and changing consumer preferences (particularly in the Electronics, Game and Pictures segments, and the music business); (iv) Sony's ability and timing to recoup large-scale investments required for technology development and increasing production capacity; (v) Sony's ability to implement successfully business reorganization activities in its Electronics segment; (vi) Sony's ability to implement successfully its network strategy for its Electronics, Game and Pictures segments, and All Other, including the music business, and to develop and implement successful sales and distribution strategies in its Pictures segment and the music business in light of the Internet and other technological developments; (vii) Sony's continued ability to devote sufficient resources to research and development and, with respect to capital expenditures, to correctly prioritize investments (particularly in the Electronics segment); (viii) Sony's ability to maintain product quality (particularly in the Electronics and Game segments); (ix) the success of Sony's joint ventures and alliances; (x) the outcome of pending legal and/or regulatory proceedings; (xi) shifts in customer demand for financial services such as life insurance and Sony's ability to conduct successful asset liability management in the Financial Services segment; and (xii) the impact of unfavorable conditions or developments (including market fluctuations or volatility) in the Japanese equity markets on the revenue and operating income of the Financial Services segment. Risks and uncertainties also include the impact of any future events with material adverse impacts.

- 1. U.S. dollar amounts have been translated from yen, for convenience only, at the rate of \(\frac{\pmathbf{\text{\text{4}}}100}{100} = \text{U.S.}\) \$1, the approximate Tokyo foreign exchange market rate as of March 31, 2008.
- 2. As of March 31, 2008, Sony had 991 consolidated subsidiaries (including variable interest entities). It has applied the equity accounting method for 63 affiliated companies.
- 3. Weighted-average number of outstanding shares used for computation of earnings per share of common stock are as follows. The dilutive effect in the weighted-average number of outstanding shares mainly resulted from convertible bonds.

- 4. In September 2005, the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants issued the Statement of Position ("SOP") 05-1, "Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection with Modifications or Exchanges of Insurance Contracts." SOP 05-1 provides guidance on accounting for deferred acquisition costs on internal replacements of insurance and investment contracts other than those specifically described in FAS No. 97, "Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sales of Investments." Sony adopted SOP 05-1 on April 1, 2007. The adoption of SOP 05-1 did not have a material impact on Sony's results of operations and financial position.
- 5. In March 2006, the Financial Accounting Standards Board ("FASB") issued FAS No. 156, "Accounting for Servicing of Financial Assets an amendment of FASB Statement No. 140." This statement amends FAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" with respect to the accounting for separately recognized servicing assets and servicing liabilities. Sony adopted FAS No. 156 on April 1, 2007. The adoption of FAS No. 156 did not have a material impact on Sony's results of operations and financial position.
- 6. In June 2006, the FASB issued FASB Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109." FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FAS No. 109, "Accounting for Income Taxes." FIN No. 48 prescribes a minimum recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Sony adopted FIN No. 48 effective April 1, 2007. As a result of the adoption of FIN No. 48, a charge against beginning retained earnings totaling \(\frac{\pmathbf{4}}{4}\),452 million (\(\frac{\pmathbf{5}}{45}\) million) was recorded. As of April 1, 2007, total unrecognized tax benefits were \(\frac{\pmathbf{2}}{223}\),857 million (\(\frac{\pmathbf{2}}{223}\),857 million would reduce the effective tax rate.
- 7. In June 2006, the Emerging Issues Task Force ("EITF") issued EITF Issue No. 06-3, "How Taxes Collected from Customers and Remitted to Governmental Authorities Should be Presented in the Income Statement." EITF Issue No. 06-3 requires disclosure of the accounting policy for any tax assessed by a governmental authority that is imposed concurrently on a specific revenue-producing transaction between a seller and a customer. EITF Issue No. 06-3 should be applied to financial reports for

interim and annual reporting periods beginning after December 15, 2006. Sony adopted EITF Issue No. 06-3 on April 1, 2007. The adoption of EITF Issue No. 06-3 did not have a material impact on Sony's results of operations and financial position.

Condensed Financial Services Financial Statements

The results of the Financial Services segment are included in Sony's consolidated financial statements. The following schedules show unaudited condensed financial statements for the Financial Services segment and all other segments excluding Financial Services. These presentations are not in accordance with U.S. GAAP, which is used by Sony to prepare its consolidated financial statements. However, because the Financial Services segment is different in nature from Sony's other segments, Sony believes that a comparative presentation may be useful in understanding and analyzing Sony's consolidated financial statements.

Transactions between the Financial Services segment and Sony without Financial Services are eliminated in the consolidated figures shown below.
